# Census Information Center Program

---

The Census Information Center (CIC) is a cooperative program between the U.S. Census Bureau and 52 national, regional, and local non-profit organizations. This program represents the interest of underserved communities.

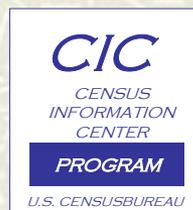

The centers serve as repositories of census data and reports, making census information and data available to the public and the communities they serve. The CICs use census data in areas such as program planning, advocacy needs assessment, defining service areas, public policy development, developing new business enterprises, and conducting race/ethnic-related research.

# POPULATION AND DEMOGRAPHIC DATA FROM CENSUS 2000: HOW TO USE CENSUS DATA TO DESIGN EFFECTIVENESS-BASED COMMUNITY PROGRAMS AND DEMONSTRATE PROGRAM EFFECTIVENESS

**R. BONG VERGARA, MSW, MA**

**CENSUS DATA & GEOGRAPHIC INFORMATION SERVICES  
SPECIAL SERVICE FOR GROUPS**

## INTRODUCTION

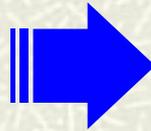

**This presentation aims to discuss how local non-profits can make the most of the client data that **THEY ALREADY COLLECT** in demonstrating program effectiveness.**

**It will also introduce the value of performance monitoring in non-profit management.**

**The sources of information for this presentation are the National Academy of Sciences and the LA County DHHS Service Integration Plan. The full citations are available upon request.**

## Missing Link #1

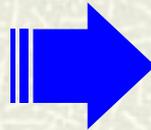

Increased ability  
to demonstrate  
program  
effectiveness

Increased  
chances for  
getting funding  
and resources

## Missing Link #2

Investing  
agency resources to  
conduct performance  
monitoring

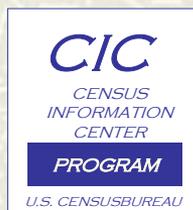

Increased ability  
to demonstrate  
program  
effectiveness

# PREPARING USABLE CENSUS 2000 HEALTH-RELATED DATA

## INTRODUCTION

This presentation aims to provide an illustrative example of how to use the Census Bureau website [www.census.gov](http://www.census.gov) in downloading census data.

The example is:

Health Conditions for the Asian Alone population in the LA-Riverside-Orange County region.

The PowerPoint presentation shows the work flow.
