# Efforts Prior to Delay

# Impact of Delay

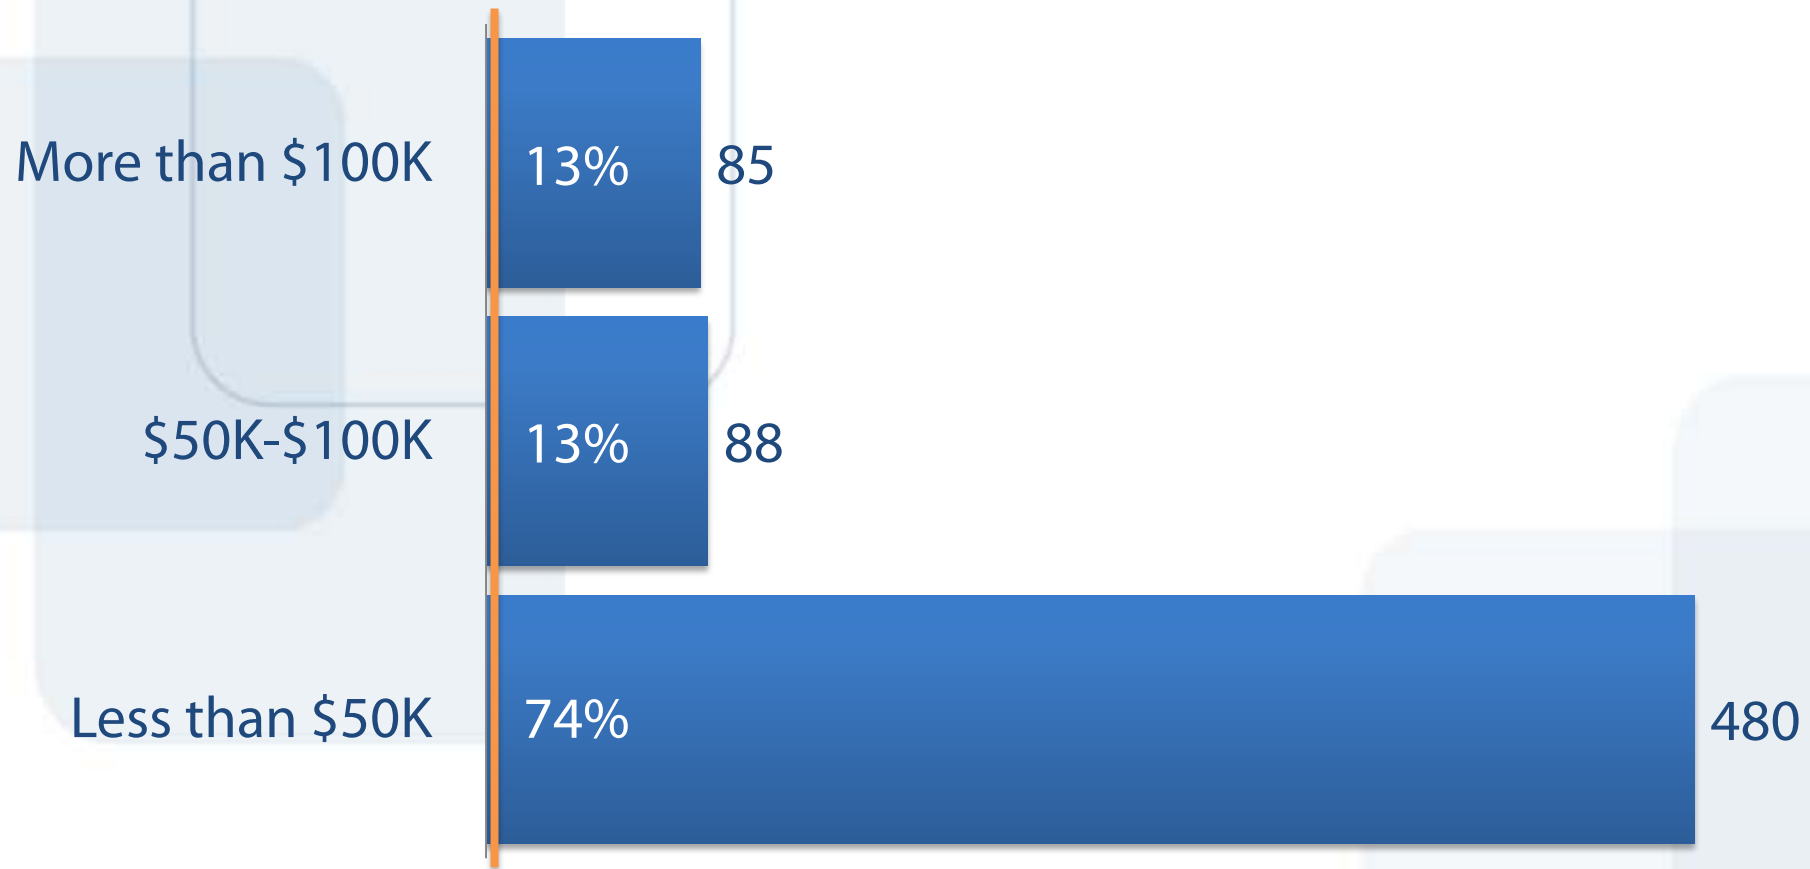

# Impact of Delay (added comments)

- ICD-10: The code that cried wolf
  - Physicians no longer believe that ICD-10 will happen
  - Believe that delays will continue
  - Pulled budget money
  - Lost momentum

# Cost of Delay

# Other Implementation Concerns

- Documentation challenges
- Struggling with EHR initiatives
- Still reeling from 5010 and lack of vendor coordination
- Worried about costs of retraining

# What Needs To Happen

- Establish credibility
  - Clear concise messaging
  - Accurate cost estimates for physician implementation
  - Comprehensive education on how data will be used and its impact on physicians
