Can I take my laptop home tonight so I can get caught up on billing for last week? I'm way behind. When I did that last time it really helped me catch up.

make decision

Round 1 Week 1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16

The screenshot shows a 3D-rendered scene of a medical office. Two female characters are standing and talking. The character on the left is wearing a black blazer and pants, while the character on the right is wearing a white lab coat. A speech bubble from the character in the black blazer contains the text: "Can I take my laptop home tonight so I can get caught up on billing for last week? I'm way behind. When I did that last time it really helped me catch up." Below the speech bubble is a blue button with the text "make decision" and a downward-pointing arrow. In the top left corner, there is a shield icon with the number "0" inside, and the text "Your Score" below it. In the bottom left corner, there are icons of a yellow sticky note with an exclamation mark and a yellow folder. At the bottom of the screen, there is a progress bar with the text "Round 1 Week 1" and a series of numbers from 2 to 16.

New Video Game to Launch October 2013

- **2nd Video Game in “Cybersecure Your Practice”**
 - Designed to raise security awareness for providers, health professionals and staff
 - Developed in coordination with OCR
 - Focuses on Contingency Planning, Back-Up and Recovery

New Video Game to Launch October 2013

Cybersecure Contingency Planning

No, you only have to plan to respond to natural disasters, like tornadoes, floods and wildfires.

Not if you have insurance.

No, why waste your time planning for something that is not likely to happen.

Yes, if you don't plan for threats like fire, vandalism, or power outages, your information may be vulnerable to loss or damage.
