

**National Committee on Vital and Health Statistics (NCVHS)
Hearing on the Health Plan Identifier**

----- an identifier under the Health Insurance Portability and Accountability Act (HIPAA)-----

**Department of Health and Human Services
Hubert H. Humphrey Building
200 Independence Ave, SW Room 800
Washington, DC 20201
Wednesday, May 3, 2017**

Hearing Purposes, Objectives

The purpose of this hearing is to seek further input from the health care industry for disposition and next steps of the Health Plan Identifier following its three year enforcement discretion period. NCVHS has held two hearings on the same topic in 2014, and prepared two letters to the Secretary of Health and Human Services. The committee intends to obtain clear information from industry regarding the business need and value of the HPID in the current health care environment.

Tentative Agenda

Unless otherwise specified, each testifier will have 5 minutes to present key points followed by Committee Q & A

Written testimony is requested to supplement oral testimony and is welcome from any other individual or organization who is not presenting.

5. American Hospital Association (AHA)
6. Medical Group Management Association (MGMA)
7. ERISA Industry Committee, ERIC
8. NUBC
9. American Health Information Management Association- Public Health Data Standards Consortium (AHIMA-PHDSC)

QUESTIONS FOR PANELISTS

We would like testifiers to provide any visuals and examples that will help NCVHS understand the exchange and routing of transactions, and how identifiers play a role in the process.

1. What health plan identifiers are used today and for what purpose? Visual work flows are welcome.
2. What business needs do you have that are not adequately met with the current scheme in use today?
3. What benefits do you see the current HPID model established by the HHS regulation provide? Does the model established in the final HPID rule meet your business needs?
4. What challenges do you see with the current HPID model established by HHS?
5. What recommendations do you have going forward regarding health plan identifiers and an HPID final rule established by HHS?
