

**MedStar Washington Hospital Center**

**Health Information Management  
Vital Records Section**

## Birth – EBRS

- ▶ Clinical Staff document all data related to the birth in the official Medical Record.
- ▶ Parents Complete the Mother's Worksheet for Child's Birth Certificate (English & Spanish)
- ▶ HIM abstracts the data from the Medical Record and Mother's Worksheet to be entered into the ERBS.

## Death – EDRS

- ▶ Clinical Staff document all data related to a death in the Medical Record
- ▶ Clinicians complete the Patient Death Fact Sheet to certify death information
- ▶ HIM abstract the death information from the Medical Record and Patient Death Fact Sheet into the EDRS
- ▶ HIM send the Death Certificate to Clinicians Electronically for Certification.
- ▶ After Certification by Clinicians, HIM sends the Death Certificate to the Funeral Home thru the EDRS System

## EDRS /EDRS Concerns:

- ▶ Additional Diagnosis/Procedure to be added to the EBRS dropdown menu: (Anemia, GBS, Genital HSV-active, Tubal Ligation)
- ▶ Add Spell Check Feature for both modules
- ▶ HIM Staff to be able to add Clinicians
- ▶ HIM Staff to be able to re-set passwords for Clinicians
- ▶ HIM to be able to modify Cause of Death recommended by OCME
