 - Includes participation from 20,000 users in 99 countries
 - Criteria for relevance, rationale
 - WHO FIC has processed 17,300 ICD-11 proposals
- Verification
 - Scientific validity
 - Statistical validity
 - Relevant use case

WHO ICD Governance & Maintenance

- WHO ICD-11 Version Updates
 - Minor updates – released annually
 - Major Updates – released every five years (statistical continuity)
- Maintenance Optimization
 - Simplify process, increase throughput
 - Synchronize across all three classifications (ICD, ICF, ICHI)
 - Leverage national and international stakeholder expertise
 - Utilize technical knowledge within Collaborating Centers
- Key priority to develop guidance for national linearizations
